

Discover Mission in 360°

Mission in 360 allows staff, students and parents to be immersed in the world of people who are living in developing countries and are striving to “have life ... to the full” John 10:10. Please see below suggested ways to use this incredible resource so together we can transform the hearts and minds of our school communities:

For Teachers:

- Mission in 360 provides a deep and engaging experience for all who use it which can then be linked through scripture, tradition and Catholic Social Teaching. *“Our students are somewhat sheltered living on the Gold Coast so being able to highlight the way others live in countries overseas is invaluable and a great exercise in creating a sense of solidarity,” - Katherine Janovsky, Assistant Principal at St Michael’s College in Merrimac.*
- Mission in 360 can be used in a variety of classroom settings and curriculum areas. There are myriad ways you can invite students to reflect on their own experience of their home and school. *“It brought the people we support and highlight in our engagement with local schools here into the students’ hearts and minds even more powerfully,” - Catholic Mission’s Director in the Brisbane Archdiocese, David McGovern.*
- Mission in 360 worksheet and activities can be found at catholicmission.org.au/360schools. The idea behind them is to allow the students to follow in the footsteps of Jesus with love and compassion for our brothers and sisters around the world.

For Students:

- For us to understand people’s situations and perspectives we need to try to walk in their shoes. Mission in 360 allows you to be at the centre of the life of children in countries supported by your school. Explore the reality for children in Ghana, going to school, spending time with friends and playing soccer.
- Pope Francis is encouraging us to *“trade in the sofa for a pair of walking shoes and to set out on new and uncharted paths”* (30 July 2016). As you watch Mission in 360 think about how you feel and what you notice is different compared to your life.

You can find out more and engage further by checking out the activities at the links below:
